Termination!

Keystone Quick LoQ Jacks

Self-crimping/Tool-less

Quick LoQ Tool-less Keystone Inserts allow you to quickly connect Cat 3&4, 5e, and 6 wire to their respective Jacks. (See connection stages below.) Simply cut away the outer sheath, separate the colored inner wires, align to their proper pin (noted in package), using thumb and fingers clamp upper closure down upon wires. No need to strip wires, thus saving time.

Quick LoQ Cat 3&4 Jacks
