# Command™ Medium Utility Hook Value Pack

## Product Details

This medium hook can hold up to 1kg in weight, making them ideal for hanging for coats and hand towels. The hooks are easily and cleanly removed without damaging the surface underneath – no cracks, holes, damaged plaster, sticky residue or stains. The hooks can be reused by simply applying a new Command™ Strip. For your convenience spare strips are included in the pack. Command™ Utility Hooks are a great way to de-clutter your kitchen or hallway. They are ideal for keeping coats and dog leads neat and tidy. Command™ products are perfect in rented accommodation where you can't put screws in the walls or are worried about marks and stains. They hold strongly on a whole range of surfaces including paint, wood and tiles, but aren't suitable for use on wallpapered surfaces or for hanging antiques or other valuable or irreplaceable items. To remove the hook from the wall, grasp the hook and slide it upwards to remove it from the mounting base. The hook and mounting base can be re-used with a new adhesive strip. To remove the Command™ Adhesive Strip from the wall, hold the base gently and pull the tab straight down, slowly stretching it until the strip releases from the wall. All of these instructions are detailed on the back of the pack. Command™ is a trademark of 3M Company.

- A versatile, handy hook for hanging items in your home or office
- Strong holding power - up to 1kg in weight!
- Suitable for most smooth surfaces including painted walls, tiles, glass and metal.
- Removes quickly and cleanly without leaving marks or removing paintwork.
- Ideal for hanging coats, bags and other household items.
