

Part No. T-680 Programming Tool

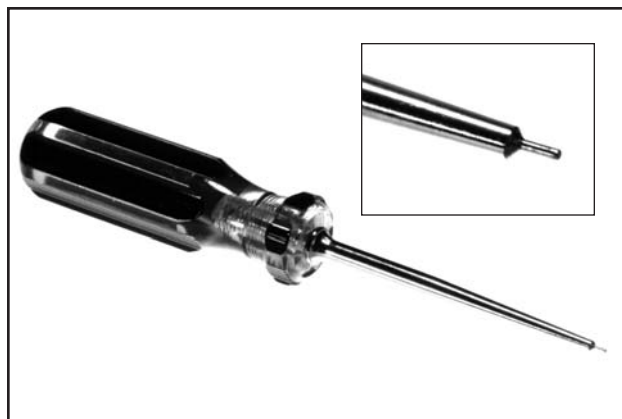

FEATURES:

- This programming tool is designed for programming of Series 680 Programmable Headers through "Top-Slot" header covers.
- Tool easily removes interconnections between pins without header cover removal and allows for on-the-spot programming.

See Data Sheet No. 16005
for Series 680 Programmable
Header information.

ORDERING INFORMATION

**Specify Part No. T-680
when ordering**

Note: Aries specializes in custom design and production. In addition to the standard products shown on this page, special materials, platings, sizes, and configurations can be furnished, depending on quantities. Aries reserves the right to change product specifications without notice.

Part No. T.675 Programming Tool

FEATURES:

- This programming tool is designed especially for Series 675 Programmable Headers.
- Tool easily removes interconnections between pins and allows for on-the-spot programming.

See Data Sheet No. 16004 for
Series 675 Programmable
Header information.

ORDERING INFORMATION

**Specify Part No. T-675
when ordering**

Note: Aries specializes in custom design and production. In addition to the standard products shown on this page, special materials, platings, sizes, and configurations can be furnished, depending on quantities. Aries reserves the right to change product specifications without notice.
