

Model TLPS

Power Supply Test Leads Set

Description

New accessory kit combines safety and functionality. The highly flexible silicon jacked test leads feature a retractile sheathed banana plug to connect to the Bench Power Supply and a fixed sheath banana plug to protect the user. A Complete selection on accessories are included:

- Large alligator clips, standard alligator clips, spade lug and banana plug adapters
- To make your connects easier. For Power Supplies with remote sensing capability, a ready-made lead set also included.
