Dimensions : 214.5 x 120.4 x 40.5mm

Application : For information technology and industrial applications

Watt : 250W

Introduction

Specification

Description

250W Open frame type power supply with 12V DC output for information technology and industrial applications

Application

For information technology and industrial applications

Features

- Compact size
- Fit 1U Chassis
- Full Load at 0~50 °C
- Air Convection Cooling
- Protection: Over Voltage, Over Temperature, Short Circuit & Over Power
- High Reliability
- High Density
- MTBF 100,000 hours at 25°C
- EMC class B
- ITE Approval
