

Greenlee is proud to introduce our new line of Nut Holding Nut Drivers, both individual sku's and 2 and 7 piece kits, that offer a rugged hollow shaft for screw clearance and a precision tapered socket that holds the nut for one-handed operation.

### Features

- Precision tapered socket holds nut for one-handed operation.
- Patent pending non-magnetic design will not pick up metal chips.
- Rugged hollow shaft for screw clearance.
- Handles color-coded and marked for easy identification.
- Cushioned grip for extra comfort and torque.
- High-grade rust resistant, chrome-plated finish.
- Heavy-duty construction for longer life.
- Designed to exceed ASME/ANSI torque requirements.
- Lifetime Limited Warranty.

### Sizes Available

3/16", 1/4", 5/16", 11/32", 3/8", 7/16", 1/2"

The 7-piece kit including all sizes

The 2-piece kit includes 1/4" and 5/16" sizes
