

Six-conductor plug with straight cover

● Material • Finish

Part name	Material	Finish
Plug case	Polycarbonate	Clear
Terminal	Phosphor Bronze	Gold plate
Cover	Polycarbonate	Beige

Applicable Cable	
Conductor diameter	Copper foil or AWG #26 ϕ 0.9- ϕ 1.0
Insulator diameter	Less than

● Electrical Performance

Description	Condition	Specification
Current Capacity	Per pin	0.5A
Rated Voltage	Per pin	125V AC
Insulation Resistance	At DC 100V	100M Ω Min.
Withstand Voltage	For 1 minute	AC 500V r.m.s

SPLIT TYPE PLUG COVER CASE TM11P-8-CV

GENERAL

This cover case is suitable for eight-conductor EMI-protected "TM11 SERIES" plug connector.

FEATURES

- (1) Split type plug cover can simplify connection work procedure and reduces troubles on connection work.
- (2) Need not re-connect when you change cover. (Eg. Changing the color of cover)
- (3) Can be assembled easily without special tool.

MAIN SPECIFICATION

Material	Polyamide resin
Applicable connector	TM11AP-88P
Diameter of applicable cable	ø5 (Standard)

HRS No.	Product No.	Color
CL222-2773-0-11	TM11P-8-CV (11)	Light beige
CL222-2773-0-12	TM11P-8-CV (12)	Medium gray
CL222-2773-0-13	TM11P-8-CV (13)	Black
CL222-2773-0-14	TM11P-8-CV (14)	Natural light gray
CL222-2773-0-15	TM11P-8-CV (15)	Red
CL222-2773-0-16	TM11P-8-CV (16)	Green
CL222-2773-0-17	TM11P-8-CV (17)	Blue
CL222-2773-0-18	TM11P-8-CV (18)	Yellow
CL222-2773-0-19	TM11P-8-CV (19)	Orange

(Number of cover in package :50 pcs)

HOW TO INSTALL COVER

- (1) Engage the cover over the cable in the direction shown in the example.

- (2) Slide the engaged cover and lock it.
