

# Bluetooth ControllerV1

SKU: P3060001 Weight: 195.00 Gram

## OVERVIEW

Makeblock Controller is a wireless Bluetooth controller suitable for children of ages 6+.

## Features

Intuitive interface design and easy to use.

One-button start and quick pairing

Programmable and customizable buttons

ABS-surface for impressive touch

## Support all the Bluetooth products of Makeblock

The Bluetooth Controller supports all the Makeblock Bluetooth products: mBot, mBot Ranger, Ultimate 2.0, Airblock, Codey Rocky etc.

# Powerful anti-interference makes it perfect for complex applications

Impervious to interference with 60+ simultaneously-working controllers within a distance of 10m

## Program your controller to customize the buttons

When your Bluetooth controller is paired with a Makeblock Bluetooth robot, you can download the extension file for Bluetooth Controller and upload it to the robot. Next, you can program to customize the functions of buttons.

P.S A new feature of Bluetooth controller is on the way: remote-control the animations and games designed via mBlock (PC).
