RoHS COMPLIANT

Description

For use with [Super Duster 134 Refill canisters \(402AR\)](#). Allows user precision control and greater comfort. This high quality threaded chrome valve is for use with [Cat# 402AR Super Duster Refill](#) aerosol cans, and can be used over and over. It simply screws onto the top of the can, and can be easily removed at any time later without damage to the valve or the can, even if the can's contents have not been depleted. When used instead of standard valves, the Trigger Valve gives the user better control of flow, a higher maximum rate of flow, and increased comfort.
