

BradCommunications™ applicomIO® DeviceNet network interface cards allow deterministic I/O data acquisition for PC-based control applications.

07 Jul. 10
DW200592

applicomIO® DeviceNet

Data acquisition for real time Control applications

Features

- **New!**
 - Support of Windows 32-bit and 64-bit (WoW64)
 - Support of Windows Seven and 2008 Server
- RoHS compliant
- Automatic devices detection on the network
- Connect PC-Based Control applications applicomIO®ly to I/O devices
- Protocol: DeviceNet Master/Slave
- 1 Serial or Ethernet port for remote configuration and diagnostic
- Embedded Communication on the card for powerful data throughput
- Automatic I/O mapping for easy configuration
- Certified by the ODVA Test Lab

Supported OS

Standard package

- **Windows 32-bit and 64-bit (WoW64)**
 - Windows XP
 - Windows 2003 Server
 - Windows Vista
 - Windows Seven
 - Windows 2008 Server
 - Windows 2008 Server R2

Free Download

- **Other operating systems**
 - Ardence RTX
 - VxWorks
 - QNX
 - Linux
 - DOS

Molex is a member of ODVA (Open Device Vendors Association)

PCI-Universal

PC/104

Overview

Some of the world's most demanding high-speed control and automation applications run on standard PCs using BradCommunications™ applicomIO® fieldbus interface cards. Dedicated DCS and PLC systems have been eliminated in favor of open platforms running PC-based control systems.

The benefits include:

- Reduced material costs
- More flexible and customizable systems
- Reduced development times
- Reduced field-support costs

applicomIO products are design so industrial applications can be designed independently of the fieldbus used. **OEMs, system integrators** and **end-users** can take advantage of developing standard control applications as well as selecting the fieldbus connectivity required from the applicomIO product range.

applicomIO products consist of a fieldbus card and engineering tools which quickly and easily setup communication. EVERYTHING is included for a successful implementation at a lower cost.

applicomIO provides connectivity support for all popular fieldbuses including **EtherNet/IP, PROFINET IO, Modbus TCP, PROFIBUS, DeviceNet** and **CANopen**. Our cards are developed in compliance with the technical specifications of industrial organizations and comply with the applicable industrial standards. applicomIO supports up to 8 cards in a single PC and can run on various operating systems including Windows 32-bits, Linux as well as real-time OS such as VxWorks, QNX, and VenturCom RTX.

Particularly, the **BradCommunications™ DeviceNet** interface cards are equipped with 1 DeviceNet port handling DeviceNet protocol in **both Master/Scanner and Slave modes** up to 500Kbps.

A smart A.D.M (Automatic Dual port ram Mapping) mechanism avoids the I/O tags configuration in the Dual Port RAM of the card. More than a simple I/O acquisition card, the applicomIO® interfaces provide the applications with additional information such as: *device status and diagnostics, process data read/write monitoring, communication tools for troubleshooting, hardware and software Watchdog, etc.*

The communication layers are completely embedded on the card, allowing easy and fast communication with field devices resulting in remarkable application performance.

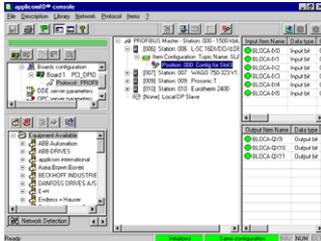

Product package includes:

- Fieldbus interface card
- Engineering console for configuration and diagnostic tools
- Data servers (OPC DA 3.0 & 2.05, DAServer, FastDDE/SuiteLink)
- Development libraries: Windows (DLL), VenturCom (RTX)
- Static library for non-windows OS (VxWorks, QNX, Linux, etc)

Software tools

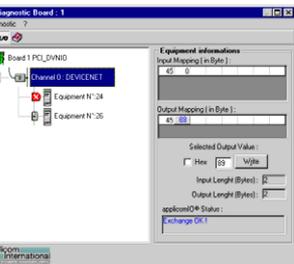

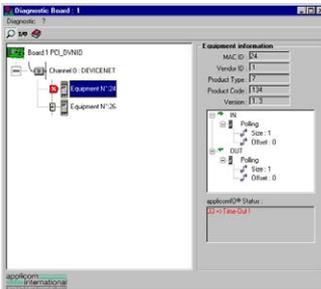

The applicomIO[®] Interface cards provide effective software tools enabling fast integration of industrial communication into your applications. The console is common to all fieldbuses of Woodhead offer as Profibus-DP, EtherNet/IP, Modbus/TCP and CANopen.

- Configuration console -

- OPC Browser -

- Diagnostic and test tools -

Hardware specifications

	PCU-DVNIO	PC104-DVNIO
Bus interface	PCI Universal 3.3/5V, PCI-X compatible	PC/104 bus
Processor	AMD SC520	
Memory	8 Mbytes SDRAM	
Interruption	Hardware Plug&Play	2, 3, 4, 5, 6, 7, 10, 11, 12, 14, 15
DPRAM Address	Hardware Plug&Play (2 Kbytes used per card)	From C8000 to DE000 (8 Kbytes used per card)
Dimensions (L x W)	168mm x 107mm (6.61" x 4.21")	95mm x 90mm (3.74" x 3.54")
Consumption	6W (max. 1.2A)	5W (max. 0.8A)
Operating T°	0°C (32° F) up to +70° C (149° F)	-40°C (-40° F) up to +85°C (185° F)
Storage T°	-40°C (-40°F) up to +80°C (176°F)	-40°C (-40° F) up to +85°C (185° F)
Discrete Input	Opto-coupled discrete input Voltage -> DC +10 to +30 or AC 24 V (50 to 60 Hz)	
Discrete Output	"WatchDog" output contact free from potential (floating) (24V DC, 0.25 A)	
EMC Compliance	EN55022 Class B, EN61000-6-2, EN61000-3-2, EN61000-3-3	
RoHS Compliance	YES	

1 DeviceNet port

Connector type	DeviceNet standard Combicon-style (5-pin female connector with screw and resistance terminator included)	HE13 (2 x 5 pins)
CAN Controller	Phillips SJA 1000	
CAN Transceiver	Phillips 82C251 in conformity with DeviceNet specifications	
Speed	125, 250, 500 Kbps	
LED indicators	1 Status LED / 1 transmission LED	

Port for remote configuration and diagnostic

Port Type	Ethernet port	Asynchronous Serial port
Connector type	BaseT - RJ45	HE13 (2 x 5 pins)
LED indicators	4 LEDs - TX/RX/Link/100 Mbps	-
Electrical interface	Ethernet IEEE 802.3	RS232
Speed	10/100 Mbps (auto-negotiation)	50 to 38400 bps

Protocol Specifications

DeviceNet	<ul style="list-style-type: none"> Master/Slave modes run simultaneously Devices supported: "Group 2 Only Server" and "U.C.M.M" Manage up to 63 nodes Node parameter online configuration I/O Slave messaging: Strobe, Polling, Cyclic and Change of State Explicit and I/O Peer to Peer messaging I/O data image: up to 2 Kbytes Integrated data consistency applicomIO[®] access to variable types (bit, byte, word, double word) Up to 255 Bytes by Slave EDS Library
------------------	--

Ordering Information

Part Number	SAP	Product Description
DRL-DVN-PCU	112003-0004	BradCommunications™ applicomIO [®] PCU-DVNIO DeviceNet card, PCI-Universal bus, 3.3/5V
