— Not Available

This chart lists the corresponding Panduit part number for a product that competes with the product corresponding to the competitor's part number at the time of printing. This chart does not suggest that any product is interchangeable for any particular use. Panduit should be contacted with exact requirements and users are expected to test products in their projected environments.

For weather resistant nylon ties, add a "0" to the end of Panduit part number (example: BT1M-C0) and an "X" to the end of T & B part number (example: TY523MX).
