

JST-PH Male to JST-SM Male Adapter - 100mm

PRT-14998

This simple adapter wire terminates on one end with a JST-PH Male connector, and a JST-SM Male connector on the other. It can be used as a bridge between their respective connector mates. Each wire is 100mm long and is capable of supporting up to 300V

These adapters can be used with our EL products to make them more useful with different types of connectors.
