

## AC Induction Motor for TMDSHVMTRPFCKIT

### HVACIMTR

The ACI Motor Kit is designed for customers looking to use the High Voltage Motor Control and PFC Developer's kit with an AC induction motor. The kit includes a three phase AC induction motor and an encoder, both of which are work with the motor control kit software right out of the box.

**All software, documentation, and hardware documents can be accessed by installing [controlSUITE](#).**

### Features

Three phase AC induction (ACI) motor for use with High Voltage Motor Control and PFC Developer's Kit (TMDSHVPFCMTRKIT).

Included ACI motor: GE 5K33GN2A, 180W 220VAC 1.3A Encoder included for sensed motor control software development

Included incremental encoder: 2048 PPR, Quantum Devices QD200-05/05-2048-0-01-T8-01-00 TMDSHVMTRPFCKIT software tuned for included motor and encoder.

**All software, documentation, and hardware documents can be accessed by installing [controlSUITE](#).**
