

Ultra Thin Toslink Digital Optical SPDIF Audio Cable, 2M (6.6-ft.)

MODEL NUMBER: **A102-02M-THIN**

Description

Tripp Lite's 2M (6.6-ft.) Ultra Thin Toslink Digital Optical Cable provides the ultimate in pure, digital audio quality. Using superior grade optical fiber, and precision polished optical connectors, Toslink cables offer a clean signal at even the most extreme volumes to give you a detailed, rich sound. Constructed of Ultra Thin cable, it's ideal for situations where space is at a premium.

Features

- Ultra Thin cable is ideal for situations where space is at a premium
- Digital Optical Fiber offers the best in Audio clarity
- Precision polished optical termination minimizes loss for better high frequencies, and a more realistic stereo image
- Immune to all Electromagnetic and Radio-Frequency interference
- Eliminates distortion caused by inductance, capacitance, and resistance found in copper cables

Highlights

- Ultra Thin cable is ideal for situations where space is at a premium
- Superior-grade optical fiber and precision polished optical terminations
- Best possible sound quality through digital fiber optic signals
- Immune to all forms of EMI/RFI
