

DisplayPort 1.2 to DVI Active Converter, DisplayPort to DVI (M/F), 1920 x 1200/1080p, 6 in.

MODEL NUMBER: **P134-06N-DVI-V2**

Description

The P134-06N-DVI-V2 DisplayPort 1.2 to DVI Active Converter connects a DisplayPort 1.2 computer to the DVI port on a monitor, projector or television. With a male DisplayPort connector and a female DVI-I dual-link connector, this converter lets you use your existing DVI display instead of buying a new DisplayPort monitor.

Ideal for displaying video on a large monitor or digital sign, this converter supports high-definition video resolutions up to 1920 x 1080 (1080p). Because it's an active converter, the P134-06N-DVI-V2 converts both Single-Mode and Dual-Mode (DP++) DisplayPort output. It's perfect for use with graphics cards, such as AMD Eyefinity, that do not output DP++ signals.

Plug and play with no software, drivers or power supply needed. Gold-plated connectors and contacts ensure excellent conductivity. Integral strain relief ensures the converter and molded connectors last a long time. The P134-06N-DVI-V2 is backward compatible with previous DisplayPort generations and fits easily in a briefcase, backpack or laptop bag for connecting on the go.

Features

Send High-Definition DisplayPort 1.2 Video Signals to a DVI Display

- Connects DisplayPort 1.2 computer to DVI-enabled monitor, projector or TV
- Ideal for displaying video on large monitor or digital sign
- Female DVI-I dual-link and male DisplayPort connectors
- Backward compatible with previous DisplayPort generations

Vibrant, Superior Video Quality

- Supports HD video resolutions up to 1920 x 1080 (1080p)

Highlights

- Active converter works with all DisplayPorts
- Supports HD video resolutions up to 1920 x 1080 (1080p)
- Converts both Single-Mode and Dual-Mode DisplayPort output
- Plug and play—no software, drivers or power supply needed
- Gold-plated connectors and contacts

Package Includes

- P134-06N-DVI-V2 DisplayPort 1.2 to DVI Active Converter (M/F), 6 in.
