1 Built-in Phase Diagram

- Note:
- 1 This product should be used in combination with a connector unit incorporating crimp terminals.
 - 2 The recommended compatible cable diameter is $\phi 9 \pm 0.4$. In case a cable with a larger diameter will be used, consider that abrasion may occur on the cable jacket while pulling the cable through the cap. Please pay attention during the assembly process.
 - 3 For the procedures for wire connection with this product, refer to ETAD-E3191.
 - 4 For details of the packaging method of this product, refer to ETAP-E3278.
 - 5 This product is sold in units of 200 pcs.
 - 6 UL Recognized, cUL Recognized (File No. E52653).
 - 7 There may be several dents, dings, and swelling due to air bubbles on the exterior surface of part number 2. Details will depend on the appearance limit samples to be exchanged separately. In addition, for manufacturing reasons, there is an unplated area on the inside of one of the holes on either side of the left or right hole in part number 2.
 - 8 There may be an overflow gate trace at the location shown in the figure with a MAX height of 0.25 mm.
